PROFESSIONAL SUMMARY

High-impact Business Development, Growth Marketing, and Consultative Sales professional with a robust analytical foundation in Computer Science. Expert at diagnosing buyer intent, executing automated cold outbound campaigns, orchestrating target audience segmentations, and designing data-driven customer acquisition funnels to accelerate premium account conversions. Proven track record of monitoring multi-tier pipelines, auditing transaction drop-offs, and optimizing performance marketing metrics to scale startup-velocity revenue.

BUSINESS DEVELOPMENT, SALES & MARKETING SKILL SET

Sales & Consultative Strategy: Buyer Intent Analysis, Consumer Psychology, High-Net-Worth Stakeholder Management, Consultative Relationship Pitching, Premium Account Management, Lead Scoring & Ingestion, Deal Closure Negotiation.

Growth & Performance Marketing: Cold Email Outreach Architecture, B2B Lead Generation, Campaign Deliverability, Audience Segmentation, A/B Copy Sequencing, Conversion Rate Optimization (CRO), Customer Acquisition Cost (CAC) Control, LTV Optimization.

Analytics & Tech Stack: n8n, Zapier Workflow Automation, Jira CRM Systems, Trello, Figma, LangSmith, SQL, Tableau, MS Excel (Advanced Data Profiling).

PROFESSIONAL EXPERIENCE

Business Development & Project Management Intern

Oct 2025 – Mar 2026

TeleQuest Pvt Ltd

Bangalore, India

- Built cold outbound email architecture using CRM automation; mailed 200+ target enterprise clients to capture new pipeline leads.
- Optimized campaign deliverability, domain warm-ups, and copy sequencing to boost active open/response rates for rapid discovery routing.
- Expanded pipeline movement and reduced manual oversight by 45% via conversational logic and consultative advisory systems.
- Deployed 5+ primary commercial pipeline tools ahead of deadline parameters while directing technical support groups toward revenue metrics.
- Formulated Client Advisory SOPs mapping end-to-end onboarding funnels, minimizing lead response lag and human operational errors.
- Facilitated negotiation between solution architects and decision-makers, converting user needs into high-ticket portfolios for retention.
- Restructured asset-reporting channels and optimized database sharing, lowering operational reporting overhead by 30%.

Growth Marketing & Sales Strategy Analyst

Apr 2025 – Aug 2025

Techhnnessine Bharat

India

- Directed data-driven lead generation and customer-acquisition research, elevating critical Day-1 marketing onboarding conversions by 14%.
- Segmented regional marketing cohorts to isolate conversion drops; designed personalized behavioral nudges and remarketing tactics to recapture leads.
- Configured 4 dedicated marketing attribution and KPI revenue dashboards, narrowing data asymmetry and shortening strategic campaign decision cycles by 35%.
- Handled 5M+ historical consumer logs, optimizing 100+ SQL queries to achieve a 35% speed enhancement in retrieving performance marketing analytics.
- Sustained a 99.9% attribution validation rate via custom profiling scripts, eliminating reporting anomalies during multi-million dollar promotional budget evaluations.
- Benchmarked competitive positioning trends and modeled long-term sales demand patterns to preserve customer acquisition efficiency against shifts.

HIGH-VALUE SALES & ACQUISITION CASE STUDIES

- **Digital Sales Funnel Integrity (Zepto Model):** Audited purchase journeys to isolate a 22% transaction abandonment rate at the lower funnel; authored a PRD for a secure "One-Tap" sequence to capture transaction leakage, projecting a \$2.1M expansion in Annual GMV.
- **Market Pricing Strategy (Zomato Model):** Discovered hidden pipeline leakage in premium user tracks; designed a tiered demand strategy with demographic cohort behavior mapping to drive a sustainable 11% growth in Average Order Value (AOV).
- **Conversational Deal Capture Engine (WhatsApp API):** Documented customer drop-off risks and delayed response times; built an automated conversational interface for rapid profile extraction and pre-valuations, reducing lead response times by 60%.

REVENUE SYSTEMS & CONSULTATIVE APPLICATIONS

- **Automated Profile Matching Simulator:** Programmed a quantitative evaluation simulator mapping qualitative parameters into structured proficiency reports to remove subjectivity bias, accelerating search selections and protocol alignment.
- **Incident Management Automation Engine:** Configured an automated customer escalation system for mock enterprise environments, resolving 80% of Level-1 support inquiries while mapping underlying customer grievance and pipeline friction trends.

EDUCATION, ACHIEVEMENTS & LEADERSHIP

Vellore Institute of Technology (VIT), Bhopal – Bachelor of Technology in Computer Science and Engineering CGPA: 8.18/10 (2022 – 2026)

Cold Email Outreach Capture: Built an automated lead pipeline from scratch; scaled outbound sequences to 200+ prospective corporate clients.

Corporate Strategy Performance: Ranked Top 5% Performer nationwide in the Deloitte Strategy Simulation for corporate execution and valuation.

University Cultural Leadership (Punjabi Club Head): Led cross-functional student operations, managed budgets, and drove marketing outreach.

Advitiya Management Operations: Coordinated core execution tracks, high-clarity event planning, and institutional pitching to drive signups.
